Vancouver, BC

To All Darts BC Members:

I want to pass on my congratulations to all the members of Team BC and also say that the Provincial Playdowns was, in my opinion, a huge success. The AGM this year was also very informative and I was please to see that there were some individuals who were more than willing to put forth some very good ideas.

As was voted on at the AGM, there was a motion put forth for a change to the Ranking System. The motion was for points to be allocated to all events in a Darts BC ranked tournament. This would include, along with the already ranked Singles Events, the Doubles Events for both Men and Ladies as well as the Mixed Doubles events. They would also include the Triples and the Game of Tactics that is played at the Salmon Harvest.

Because this year there is already 3 Tournaments on the Calendar, this new system will not be implemented for these as they were set up and Ranked before the AGM. As this was on the surface a sound idea, I have come across some logistical snags. Without going too far in depth, I have yet to come up with a sound and concrete way of implementing this motion into this years ranking system. I have asked that the individual who put forth the motion come up with a sound proposal that will not cause too much work for Tournament Organizers or for me as the Darts BC Ranking Official. It is understood that the membership voted overwhelmingly on having this change take place, however, there are alot of things to consider when making changes of this magnitude.

Having said this, it is the decision of the Executive of Darts BC, to table the change of the Ranking System until the next AGM where, at that time, we hope to have solid groundwork put together for the Ranking System to be changed to what the motion had indicated. It is with anticipation that I look forward to working with the membership to better darts in BC and with any luck, at the next AGM, we will have something solid to put forth for all the members of Darts BC.

Respectfully,

*Curtis McPhie
